

*We are an institution that educates with love and enthusiasm, where our students are the most important, with the unique educational platform and curriculum taught by a team of skilled professionals.*

### Mission

*Our Mission is to offer a variety of pedagogical support services allowing children to start their neurological, intellectual and emotional development from the early age to achieve their Maximum Potential. The center provides education tailored to the age, learning level and individual necessities. We build connection between the kids, their parents and a group of behavior specialists who accompany them in comprehensive education of the students.*

### Vision

*Our vision is to keep on developing an innovative educational project, providing tools that let the students achieve high academic levels and get values-based education. At the same time, close relations are maintained between teachers, students and parents, thus contributing to the student's development.*

## Values

*Speaking about values, the concept of equality, equity and respect for differences is essential for us. That is why we create an inclusive environment so that all of us feel comfortable, always implementing a policy of respect and permanent development of our students, parents and teachers.*

*Our most important values include:*

- Respect for myself and for others, for my community and for the planet.*
- Honesty with myself and with others.*
- Responsibility for my thoughts, actions, choices and decisions.*
- Humility to learn from my experiences and what surrounds me.*
- Fortitude to confront the challenges arising in the course of our life.*
- Love for getting along with and learn from others.*
